Summary

Dynamic and motivated fresher with expertise in Full Stack Development technologies such as JavaScript, HTML, CSS, React, Node.js, and SQL. Proficient in Java, Spring Boot, and Express. Skilled in building dynamic web applications and RESTful APIs. Eager learner with a collaborative mindset, seeking opportunities in Full Stack or Software Development roles to contribute and grow in a dynamic environment.

Professional Experience

Leapwork
Apr 2023 - Present

Junior Automation Engineer

Served as an **Automation Tester** specializing in automating processes within the No-Code Automation and Robotic Process Automation (RPA) domain, utilizing Leapwork as the primary tool. Proficiently employed **Selenium, C#**, and NUnit to automate APIs for the platform. Employed Leapwork tool alongside a meticulously structured framework adhering to the **Page Object Model** view. Engaged in agile team dynamics, collaborating seamlessly while leveraging **Azure pipelines** for efficient deployment and execution of pipelines.

XISCHE & CO
Aug 2022 - Jan 2023

Automation Tester/ Intern

Contributed to **TAMM PORTAL** (https://www.tamm.abudhabi/), serving esteemed client **Abu Dhabi Digital Authority** (ADDA). Primarily functioned as an **Automation Tester**, meticulously crafting and executing test scripts utilizing the D14 framework. Additionally, provided **backend development** support for the Locker team, leveraging Node.js.

XENONSTAKS
Jan 2022 - Jun 2022

DevOps/DataOps Intern

Engaged in a rigorous 5-month internship, delving into the theoretical realms of DevOps and DataOps. Acquired foundational knowledge and explored key concepts during this learning experience.

CEPTA
Jun 2020 - Jul 2020

Java Training

Completed a comprehensive Java summer training program with CETPA, gaining foundational knowledge in Java programming and exposure to Object-Oriented Programming (OOPs) concepts.

Personal Development Projects

Educational Pursuit at Coding Ninjas :-
Actively engaged in a Coding Ninjas program focused on **Java Spring Boot** and **React development**, aimed at acquiring practical skills and preparing for professional opportunities in the field.
