Hindi

Summary

Self exploring individual who can work his way around the internet and can practically learn new things in an ample amount of time. Enthusiastic and passionate for developing new skills in the Software development industry.

Professional Experience

Leapwork   Apr 2023 - Present
Junior Automation Engineer

Worked as an Automation tester to automate the No code Automation or Robotic process automation (RPA) tool which is Leapwork. Worked with selenium ,C#,Nunit to automate APIs for the platform. Used Leapwork tool for automation with a proper framework which follows the page object model view.
Got exposure to work in an agile team, also played along Azure pipelines for deployment and running the deployed pipelines.

XISCHE & CO   Aug 2022 - Jan 2023
Automation Tester/ Intern

Worked at TAMM PORTAL - https://www.tamm.abudhabi/
Client: ADDA (Abu Dhabi Digital Authority)
Worked as an automation tester for the portal where I automated test scripts
on the D14 framework and also did Backend development for the Locker team where they were using Node JS

XENONSTAKS   Jan 2022 - Jun 2022
DevOps/DataOps Intern

Did intern for 5 months where I learned theoretical concepts of DevOps and DataOps.

CEPTA   Jun 2020 - Jul 2020
Java Training

Did my summer training programme in java under CETPA. Got Basic JAVA knowledge and exposure to OOPs concepts

Personal Development Projects
Java/React Development

Currently enrolled in a Coding Ninjas programme which is for learning and getting job ready for Java spring boot / React development.
Check out my portfolio I have made by using my skills and documented my practice projects : - https://apaekshitprofile.netlify.app/

Education

DIT University
Bachelors of Technology in Computer Sciences specialised in Cyber Security and Forensics

DAV Public School
Xth , XII Completed from here

Certifications

- Coding Ninjas - Java (https://certificate.codingninjas.com/view/a83b13cfff45a132)
- Udemy - Web Development
- CEPTA completion of JAVA Training
